Python
Any fun/interesting UI technologies

PROFILE

Results-driven software engineer with 12+ years of experience in designing, developing, and maintaining high-performance web-based applications. Seeking a challenging role in a dynamic organization where I can leverage my technical skills, problem-solving abilities, and passion for innovation to contribute to the success of the team and the company.

PROFESSIONAL EXPERIENCE

Discovery Education

Silver Spring, Maryland

Senior Software Engineer | Jan 2019 - Oct 2023

- Helped lead the Corporate Education Partnerships (CEP) team in developing both small and large-scale websites for national clients such as Boeing, Home Depot, 3M, Discover, and AT&T with a primary focus on front-end development and user experience
- Developed and maintained roughly two dozen client properties built primarily in the Drupal CMS (versions 8/9) and/or the React-based Gatsby.js framework
- Collaborated with project managers, product managers, and designers to gather and refine project requirements and achieved consistent client satisfaction
- Conducted code reviews, managed multiple Git code repositories, identified and resolved technical issues, and implemented performance optimizations resulting in seamless user experiences and bug-free applications

Lockheed Martin

Crystal City, Virginia

Software Engineer | Mar 2016 - Nov 2018

- Worked with a large development team for the Government Services Administration (GSA) in upgrading and maintaining a large-scale Drupal 8 GSA portal application. Created, maintained, and optimized the entire front end of the GSA portal application, creating new Twig-based template theme files and optimizing all areas of the custom GSA theme
- Integrated community-contributed Drupal 8 modules for extending existing functionality and collaborated on custom module development for required project functionality
- Actively participated in agile development processes, including sprint planning, daily stand-ups, and sprint retrospectives, contributing to the team's efficiency and project success

Carousel 30, a Yes& Company

Alexandria, Virginia

(Multiple Roles) | Nov 2011 - Feb 2016

- Technical Team Manager** | Nov 2014 - February 2016
Project lead on all new and existing development projects. This included time management for each developer on the overall team, individual and team-based code reviews, and training and instruction for both in-house developers (FTEs) and external contract workers
- Senior Front End Developer** | Nov 2012 - Nov 2014
In charge of front-end development for all projects which included extensive cross-browser testing, weekly code reviews, and brainstorming/meetings with the creative department to achieve consistent client satisfaction
- Front End Developer** | Nov 2011 - Nov 2012
Collaborated with the creative department in design reviews for developing new websites and other client digital assets primarily using the Drupal 7/8 CMS
